Course Description:

Welcome to the Foundations of Personal Finance! I am Extremely Excited for our students to experience the Confidence, Hope and Life Change that this course will bring to the next generation. Your students will learn to win with money now and set up the foundations to make the best choices for the rest of their lives. Creating a staging ground to learn and implement these foundations as they continue their journeys to adulthood will truly be priceless lessons. Can you envision your child making better decisions than we did at their age, be monetarily conscious in all decisions they make and build a foundation to thrive, build, serve and glorify the Lord. The students will watch Videos, read a Great Finance Book both created by the Dave Ramsey Education Team. There will be pre and post-tests for each chapter, homework both in and outside of the classroom and the Chief Learning element will be our time in the classroom. We will be discussing, lecturing, diving into each lesson (4-6 per chapter) of each chapter (13) as we navigate the amazing world of Finance! This course will equip the student with the knowledge and practical intelligence to thrive in all of their financial decisions from now until eternity (which they will learn how to sew into The Lords Work). A beautiful combination of how to Love the Lord and be the best steward of the talents, time and money He entrusts to us. I can not wait to see you in class!

This Course includes:
