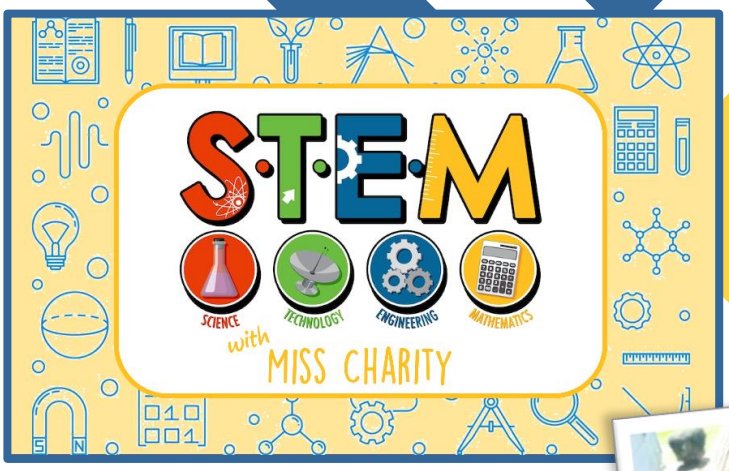
Tuition: $300 / $150 each semester

Materials Fee: $30 nonrefundable at registration (applied to tuition)



STEM Lab

STEM covers elements of Science, Technology, Engineering, and Math. Students will be using diverse strategies to explore each of these areas.
Keywords for this class are HANDS ON!
Our class will be divided into 2 parts.

- The first half-hour will be focused on Math concepts. We will work with manipulatives, games, and activities to better understand and master certain areas of math.
- The last hour will become a Makers Space! Using the STEM process to ask questions, form ideas, and produce solutions, students will construct innovative creations of their own.
- We will also be studying different STEM careers in our world.
- Homework will be minimal.

About the Tutor

This is my first year tutoring for KAT, and I am so excited! I received my B.A. from Cornerstone University in Language Arts and Elementary Education. I worked at Rockford Public Schools before starting my family.

I have served the Lord for over 20 years in Kid Ministry, which is my ultimate passion and calling. I am currently the Children's Ministry Director at FaithWay Church. I believe God is at the center of all wisdom, knowledge, and Truth, and am eager to translate that into the classes I am teaching!

I have also enjoyed being an administrator for ROCK Co-op in Plainwell over the last 13 years. I have taught a wide variety of enrichment classes to home-educated students.

Over the course of my life, my most honorable position is easily being a wife to Anthony Dear, and mother to my four children. I love being a homeschool mama!

I am a high-energy, enthusiastic, and FUN educator! I believe in making memorable experiences with children and allowing movement and energy to guide learning! I look forward to serving the families at KAT!
