

Earn money towards KAT class fees on money you are already spending on things such as groceries, gas, clothing, eating out, gifts and more!

What is it?

RaiseRight is a program where you buy gift cards from various vendors and earn a certain percentage rebate on each card purchased. Every vendor offers different rebate percentages. As the program administrator, KAT collects those rebates automatically and then pays them out to you twice a year. KAT keeps only 3% of your total rebate to cover administrative costs. Your rebate payout is intended to be used for KAT class tuition.

How do I sign up?

Email katscrip@gmail.com and ask for the enrollment code. Then download the RaiseRight app, choose “join a program,” enter the code and follow the directions on the screen. You can also sign up online at www.raiseright.com. **You will need to link a bank account or credit card to your account (please do not ever use the Pay Coordinator Directly option)** so have that info handy too! Savings are just a few clicks away!

What types of cards can I purchase?

You can order e-cards or physical cards (many are re-loadable). Both types can be ordered online or in the app and both can be sent to others if you’d like to give them as gifts. E-cards purchased for yourself will be delivered to your wallet (online or in the app) within minutes for immediate use. Physical cards ordered for yourself must be shipped directly to you, using the “ship to home” option. KAT no longer allows shipping physical cards to the organization.

When do I receive payment?

Your first payout will be available for pick up on the first day of KAT in September. The second payout is made in January, the week before second semester starts.

Please email Heather Gilsdorf at katscrip@gmail.com for more information.
