The class: For students grades 1st to 3rd, with emphasis in communication, repetition and basic vocabulary. We will learn the alphabet, songs, vocabulary and games. We will use videos, coloring, crafts, songs and games to learn Spanish.

Why learn Spanish: Spanish is a language spoken in 21 countries and approximately 442 million people in the world. The demand for bilingual workers has been increasing in industries like health care, hospitality, education, law enforcement, customer service, social services, Finance and Communication. Spanish is the most popular non-English language spoken in USA with roughly 34 million speakers across the country.

Teaching Philosophy: My teaching philosophy emphasizes that people have a natural inclination to learn, and that the learning process is more effective when learners participate actively and feel that the subject matter is relevant to their lives. I believe that students should be in control of their own learning, and that a positive, stress-free environment is essential for success.

The instructor: I am from Venezuela. I have over fifteen years of experience teaching Spanish to students of all ages, from kindergarten to adults.

Fees: \$ 410/year. Students are responsible for buying their workbooks.
