

Spanish Lab 8th to 12th grade

Natalia Saba ncsaba@sbcglobal.net

(269) 547 -8970

The class: A typical day in our class will include communicating in Spanish by using short phrases for every day class instructions and activities like games, presentations and discussions related to food, dances, customs, holidays and other interesting facts from Spanish speaking countries.

We will also practice writing skills and reading comprehension, improve listening skills through actively watching movies, videos and presentations, create dialogues and skits, and explore the language through songs, tongue twisters, riddles and poems.

The focus of this class will be exposure to Spanish in a flexible, relaxed way in order to give the students the opportunity to use their Spanish skills for the full hour. No quizzes.

This class is for you if...

You are curious about the Spanish-speaking countries.

You are interested in becoming fluent in Spanish.

You are a self-motivated Spanish language learner.

You have taken a minimum of two years of Spanish.

Why learn Spanish: Spanish is a language spoken in 21 countries and approximately 442 million people in the world. The demand for bilingual workers has been increasing in industries like Health Care, Hospitality, Education, Law Enforcement, Customer Service, Social Services, Finance and Communication. Spanish is the most popular non-English language spoken in the USA with roughly 34 million speakers nationwide.

Teaching Philosophy: I believe that people have a natural inclination to learn. The learning process has more meaning when the subject is relevant to the learner. Learning through participation is more effective than only receiving instruction. Learning flourishes in a positive, stress-free environment.

The instructor: I was born and raised in Venezuela. I have been teaching Spanish for more than 10 years to children in k-3, upper elementary, middle school, high school, as well as to adults.

Fees: \$ 360/year.
